URBAN ITALIAN DESIGN

FIRENZE LITTER BIN WITH CANOPY
ITEM CODE: UIDC1067

Urban outdoor litter bin featuring a cylindrical galvanized steel container, complete with a supporting post, a decorative spherical finial, and a protective canopy.

Ideal for installation in parks, public gardens, squares, historic city centres, pedestrian areas, and urban public spaces.

BIN CONTAINER
- Manufactured from shaped galvanized steel sheet.
- Container dimensions: Ø 30 × 51 cm.
- Base made of a pressed steel sheet disc with drainage holes for rainwater.
- Capacity: approximately 36 litres.

SUPPORTING POST
- Manufactured from round galvanized steel tubing.
- Complete with a decorative forged steel spherical finial at the top.

PROTECTIVE CANOPY
- Manufactured from a pressed steel sheet disc.
- Designed to protect the contents from rain and adverse weather conditions.

SUPPORT BRACKET
- Manufactured from shaped steel sheet, precision-cut using laser technology.
- High structural strength and refined aesthetic finish.

EMPTYING SYSTEM
- Opening mechanism operated using the supplied Allen key.
- Practical and secure system for routine maintenance and waste collection operations.

DIMENSIONS
- Overall dimensions: 30 × 41 × 128 cm (H)
- Bin mounting height: approximately 108 cm
- Anchoring system: In-ground installation

MATERIALS AND FINISHES
- Galvanized steel structure.
- Exterior-grade thermosetting powder coating.
- Available in RAL colours upon request.
