URBAN ITALIAN DESIGN

PONENTE LITTER BIN

ITEM CODE: UIDC1017

Outdoor litter bin designed for urban public spaces, featuring a cylindrical galvanized steel container mounted on a supporting post with a decorative spherical finial.

Ideal for installation in parks, public gardens, squares, historic city centres, pedestrian areas, and other urban environments.

BIN CONTAINER

Manufactured from shaped galvanized steel sheet.

Container dimensions: Ø 30 × 51 cm.

Base made of a pressed steel sheet disc with drainage holes for rainwater.

Capacity: approximately 36 litres.

SUPPORTING POST

Manufactured from round galvanized steel tubing.

Complete with a decorative cast metal spherical finial at the top.

SUPPORT BRACKET

Manufactured from shaped steel sheet, precision-cut using laser technology.

Designed to provide structural strength and secure support for the bin container.

EMPTYING SYSTEM

Opening mechanism operated using the supplied Allen key.

Practical and secure system for routine maintenance and waste collection operations.

DIMENSIONS

Overall dimensions: 30 × 41 × 128 cm (H)

Bin mounting height: approximately 108 cm

Capacity: approximately 36 litres

Anchoring system: In-ground installation

MATERIALS

Galvanized steel bin container and supporting post.

Laser-cut steel support bracket.

Decorative cast metal spherical finial.
